DELIVERY GUIDELINES

Please keep your delivery location clean and ready with cars, boxes, and extra pallets out of the way. Please be sure that our driver has clear access to this location. There will be a minimum \$50 wait charge if you are not ready to receive your pellets or if our driver is unable to efficiently deliver your pellets (driveway conditions, difficulty reaching location with forklift, unable to access location in garage or shed, etc.).

Delivery charges are quoted based on grouping deliveries together in your local area. We appreciate your cooperation when we contact you to schedule. If the original scheduled delivery date does not work for you, your delivery will be on the next available delivery date scheduled for your area.

Warming Trends does not hand unload or hand stack pellets.

Warming Trends requires a minimum 7 foot high opening and an approximately 8 foot radius within a garage or shed for our portable forklift to maneuver. If you cannot meet these requirements, we will place the pellets as close as possible to your desired location.

Much like a car, our forklift requires oil and other fluids in order to function. Despite our best efforts, please be aware that because of this there is a slight risk that oil or other mechanical fluids may sometimes leak onto garage floors and driveways.

Warming Trends will make our best effort to deliver your pellets to your desired location. Our drivers are responsible for their equipment. Our portable forklift is not designed for travel on soft ground, loose gravel or steep inclines. If we decide the ground cannot be traveled on safely, your pellets will be placed as close as possible to your desired location. Delivery to your location is up to the driver's discretion. A waiver may need to be signed if our driver feels he is unable to deliver your pellets without damaging our equipment.

Although we strive to stock each pellet brand continuously throughout the season, at times when mills have temporary shortages or during unpredicted cold snaps, we may need to substitute your pellet brand with another brand of equal or greater value. We thank you for your understanding.

MEMBERSHIP

Add Membership Total to order unless already purchased this spring. Enter this number on the line under *Membership Total*.

****Basic Membership includes:** Savings on Early Buy Pellets in 2018-2019, discounts on on-season pellet purchases (\$.20/bag - \$10 per skid), 25% discount on most replacement parts and accessories, 10% discount on labor. Does not include annual cleaning maintenance.
